

Introduction

Part 1: Technical Exercises by Level

Part 1 contains technical exercises corresponding to each level of The Royal Conservatory Certificate Program. For specific technical tests required for examinations, students should consult the *Classical Guitar Syllabus, 2018 Edition*.

Diatonic and Chromatic Scales

Objective: In preparing diatonic and chromatic scales, strive for consistent volume and articulation, steadiness of tempo, perfect *legato* articulation, and a consistent and refined tone.

Suggested practice method: Begin by playing slowly with a metronome and gradually increase the tempo, listening carefully for the maintenance of control, clarity, evenness, and good tone. Practice scales in both rest stroke and free stroke, using the finger combinations and accent patterns listed on p. 5. Finish the diatonic scales with the appropriate chord, cadence, or chord progression.

Tremolando Scales

Objective: Tremolando (repeated-note) scales may be played to develop right-hand speed and dexterity. Strive for consistent volume and articulation, steadiness of tempo, perfect *legato* articulation, and a consistent and refined tone.

Suggested practice method: Prepare tremolando scales in the same manner as diatonic and chromatic scales, giving special attention to right-hand articulation. Listen carefully for clarity of accents and consistency of volume in all finger combinations.

Slur Scales

Objective: In preparing slur scales, strive for rhythmic accuracy and a consistent volume between plucked and slurred notes.

Suggested practice method: Pay special attention to left-hand finger trajectory. Practice smaller segments of the scale, devoting an appropriate degree of extra time to strengthen weaker-finger combinations (for example, 3–4 pull-offs and hammer-ons). Listen carefully for the balance between plucked and slurred notes. Practice with a metronome and gradually increase the speed.

Scales in 3rds and 6ths

Objective: Strive for simultaneity of note pairs, balance of volume, and perfect *legato* articulation.

Suggested practice method: To achieve right-hand balance and simultaneity, practice scales in a tremolando format, repeating each dyad three or four times. Practice the left hand separately, emphasizing finger preparation to achieve a seamless quality.

Arpeggio Patterns

Objective: Strive for a perfect note-to-note clarity in rhythm, volume, and tone. Listen for precision in the timing of chord changes.

Suggested practice method: Practice with a metronome, starting at a tempo that facilitates control and clarity. Gradually increase the tempo while maintaining right-hand stability, as well as regulated finger-speed and trajectory. Most of the arpeggios have been selected from *120 Arpeggios*, op. 1 by Mauro Giuliani.

Part 2: Technique Supplement

Part 2 offers a variety of fingerings, rhythms, and supplementary exercises used by professional guitarists to vary their daily practice routine. Incorporate these supplementary components as needed, to strengthen rhythmic control, build speed, and improve flexibility in your guitar technique.

Accent and Fingering Patterns

The *im* combination may be executed as either *i-m* or *m-i*.

The *ia* combination may be executed as either *i-a* or *a-i*.

The *ma* combination may be executed as either *m-a* or *a-m*.

Arpeggio Patterns

Play the following arpeggio patterns at or beyond the given tempo. Use the given fingering and observe the repeat signs.

1. low-high pattern

♩ = 108

2. descending and ascending pattern

♩ = 108

3. two-phase pattern

♩ = 108

4. shifting *p-i-m-a* pattern

♩ = 116

5. shifting *a-m-i-p* pattern

♩ = 116

6. shifting *p-m-i-p* pattern

♩ = 100

7. ascending triple-*p* pattern

♩ = 56

8. string-crossing alternation pattern

♩ = 104

9. *p-i-m-i* crossing pattern

♩ = 104

10. two-against-one alternation pattern

♩ = 108

11. chord-plus-ascending-arpeggio pattern

♩ = 58

Two staves of musical notation for exercise 11. The first staff shows a sequence of chords and ascending arpeggios. The second staff continues the pattern, ending with a double bar line. Fingerings are indicated by numbers 1-4. Dynamics include *p* (piano) and *3* (triplets).

12. chord-plus-descending-arpeggio pattern

♩ = 58

Two staves of musical notation for exercise 12. The first staff shows a sequence of chords and descending arpeggios. The second staff continues the pattern, ending with a double bar line. Fingerings are indicated by numbers 1-4. Dynamics include *p* (piano) and *3* (triplets).
